THE DIABETES FOUNDATION FOCUSES ON THESE MAIN AREAS:

MEDICAL ASSISTANCE: The DFI provides diabetes medications and supplies to uninsured, underinsured, low-income people with diabetes, assuring that they are able to care for their diabetes while they secure more long-term aid from other sources. Bridging this gap and allowing the patient to be compliant with their medications helps avoid many of the complications associated with the disease and will reduce visits to the emergency rooms and hospital stays, therefore, reducing healthcare costs. **The DFI is the only agency in New Jersey providing this short-term medical assistance to diabetics in need.**

PATIENT SUPPORT SERVICES: DFI staff, interns and volunteers connect with patients to provide educational information and resources for them to move forward, letting them know that they are not alone in the process. Follow up with patients receiving DFI assistance is critical to ensuring that long-term assistance is established before their medications run out.

DIABETES PUBLIC EDUCATION: The DFI provides up-to-date information on diabetes and its complications, helping patients gain a better understanding of how to achieve and maintain a healthier life. Led by healthcare professionals addressing prevention, nutrition, diet, exercise, and management of the disease, these no cost education programs and health expos are held in many areas throughout the state.

CAMP SCHOLARSHIPS: The DFI provides the funding to send needy children from the tri-state area to Camp Neveda, a co-ed diabetes camp in Sussex County, NJ. The opportunity to spend time with peers, enjoy traditional camp activities and learn more about how to take care of their condition has an enormous positive impact on the lives of children with diabetes – a few weeks of not feeling “different” than anyone else.

THE DIABETES FOUNDATION, INC. (DFI)

is dedicated to improving the care and quality of life for children and adults with diabetes. The DFI was incorporated in 1990, to provide assistance to people with diabetes throughout the state of New Jersey. With diabetes now reaching epidemic proportions and the rate of obesity and diabetes in New Jersey among the highest in the nation, we serve a population that lives day-to-day with this serious chronic disorder.

Health Fair

Join us from 9:30 am - 12:30 pm
